

Mauritania Technology Fosters Tradition (TFT)

Participatory Research Mapping (PRM)

(7) Questionnaire 3: Resource use, Guidance (En)

v 1, May 2004

On this questionnaire:

Type of questionnaire: 1 year recall (how to define??). To be administered separate for the previous year/season and for the year before last year/season???

To be administered together with: Sketch maps

To be administered to: Each of the families in all the villages that utilize Sawana, Oum Lelle and/or Chlim, and for whom the Socio-economic questionnaire already has been administered.

Notes on specific variables:

Name – Include both subsistence and cash-earning use

Resource use ID no. – This is a running series of numbers, cumulatively added and continued between villages. To be added in the office at the end of each day of data collection (and NOT in the field). Use leading zeros and 3 digits.

Village –

Camp –

Socio-economic questionnaire ID no. – Add the number from the Socio-economic questionnaire for this same household.

Resource – Name and/or type of resource utilized

Location – Specify, relative to the center of the tamourt/gaat: (1) Direction and (2) distance. Specify also location relative to any nearby prominent/well known environmental or cultural features.

Comments – Include information on the following: (1) comments on the names (including their meaning), (2) history of the specific place the name covers/refers to (make note of reference to field note book (that is, page number) to write up the whole story), (3) How often access/utilized (the last year/season), and (4) GPS reference points (when/if available)

On resource codes: (to be added)
